

Ezio E Magarotto, CUA

ezio@magarottos.com | [Magarottos Inc](#) | [LinkedIn Profile](#) | 630.890.7582

I have over 18 years of experience as a Lead UX / UI Architect & Designer focusing on complex interactions, offering my clients a wealth of best practice & industry knowledge in user experience, design, & research. I am adept at either managing or being part of a team, as well as interfacing with developers or top-level executives. My military background has taught me to thrive in high-stress, time-critical situations in which balance among multiple projects is required.

UX Director, Press Ganey

04/2016 – 09/2016 (Managed Three Persons)

- Provided UX leadership & direction to a host of Press Ganey initiatives, both client & internal facing
- Was a dogged evangelist to the benefits of integrating User Experience, User Research, & proper Visual Design into a project's lifecycle
- Actively presented, educated, & advocated for the services of UX to product sponsors & executives in order to integrate UX practices as part of Press Ganey development methodology
- Built, managed, & mentored a team of hybrid UX professionals
- Provided strategic project & resource planning across multiple highly visible initiatives
- Worked intimately with product management to personally concept, design & test future state Press Ganey application functionality
- Acted as a hands-on leader, assisting & supporting my team with UX, Visual Design, & User Researcher support & direction
- Campaigned for & developed an organic Pattern Library & Style Guide leveraged across the entire brand of Press Ganey applications

Lead User Interface / User Experience Designer & Information Architect, Press Ganey

03/2015 – 09/2016 (Managed Three Persons)

I was brought in to lead Press Ganey's initiative to pull five disparate client facing applications into one unified & elegant user experience solution. Worked closely with business & product sponsors to drive & assist the formulation & translation of complex requirements into clear & concise user interactions. I provided dozens of development ready annotated wireframes, redlined comps, & an organic prototype. Designed & executed the full suite of user testing & research to influence the final UX & UI. Presented & defended UX direction & decisions to C level executives & mid-level management; as well as acted as a liaison between Business & Development

Lead User Interface / User Experience Designer & Information Architect, Hyatt

09/2014 – 02/2015 (Managed One Person)
